

Ada, the National College for Digital Skills

WHERE TECH CAREERS BEGIN

WELCOME

"Welcome to Ada, the National College for Digital Skills, where your tech career begins. With over 100,000 unfilled tech jobs in the UK and the rapid rise of AI, the demand for skilled professionals is soaring as technology transforms roles across all industries. At Ada, we see the immense opportunities for young people to build successful careers in fields like software development, cybersecurity, games design, and data analysis.

Our Sixth Form curriculum develops creative, technical, and entrepreneurial skills through expert knowledge and industry insights. Students will engage in hands-on learning, including termly industry projects where they address a challenge set by our Industry Partners. Our provision is enhanced by the Ada Skills Programme, which nurtures learners in developing interpersonal tools to tackle broader challenges.

We are proud to work closely with leading companies like Deloitte, Bank of America, and King, ensuring the curriculum reflects the latest industry trends. I look forward to welcoming you to our Westminster campus, where you can discover how Ada can be the beginning of your successful tech career."

Sarah Salimullah

Grade 5 or above in English Language

Ada changed my life! I went to the sixth form college and have now just started my Degree Apprenticeship with JustEat. The lecturers' support has been amazing and the industry volunteers help us to get job-ready. I feel lucky that I came across Ada and for the unique path into a tech career it has provided me.

Vanessa - Ada 6th form Alumni and now Ada apprentice

HOW TO APPLY

Step 1

Explore career pathways on our website (ada.ac.uk) and courses and decide what combination would suit you the best.

Step 2

Scan the QR code below and complete the online **application form**. Once your application has been reviewed you will be invited to create your account on our applicant portal and finalise your application.

Step 3

Attend a **Lift-off Day** where you will have a short interview and complete a problem-solving task.

Step 4

If successful in securing a place, you will be invited to **fun events** and **taster days** throughout the year.

Step 5

On GCSE Results day, come to Ada and **enrol** into year 12!
